

COMPANY PROFILE

Since its inception in 1997, Sureline Engineering has aimed at building a reputation for providing quality products and services, while rapidly responding to international needs for innovative and supportive industry advances.

Now some 10 years on, Sureline Group Pty Ltd has continued to maintain a service driven focus, based on the most up to date research in all aspects and phases of Engineering, Manufacture and Logistics.

At Sureline we pride ourselves on having a mix of hand-selected personnel with Degree, Diploma & Certificate qualifications; therefore we're able to handle all our clients Design, Manufacturing, and Project Management requirements from concept through to delivery.

Our end-to-end supply chain management capabilities include sea freight, airfreight, rail, road, & contract logistics. Sureline Group provides the transportation expertise and strategically located global resources that industry leaders rely upon.

Sureline produces a broad range of products from fabricated structural steelwork, to custom designed and industry specific equipment & machinery.

So as to provide our customers with complete confidence in the products we supply, all Engineering Design, Drafting, Calculations, FEA and Stress Analysis, are produced by qualified Australian Engineering personnel, to relevant "Australian Standards".

All steel materials & fabrication are produced to meet Australian Standards. To guarantee this high level of manufacture is adhered to, Sureline employs a totally independent, 3rd Party Quality Assurance Company, to inspect the production 100% of the time through manufacture.

Sureline is a privately owned Australian Company, operated from our head office located in Sydney Australia, with our Asian office being based in the commercial centre of Shanghai.

This combination of east / west cultures and business perceptions, enables Sureline to provide high quality products to the Australia market. Our experienced & professional staff, guarantees a personalized service to all of our customers, ensuring results that are second to none.
